As noted, the project is worth 50% of the total grade. This is broken down as follows:

1. Deliverables ---- 40%
2. Final Report ---- 20%
3. Presentation* ---- 25%
4. Peer Evaluation ---- 10%
5. Attendance at Presentations ---- 5%

* Should any member of a group be absent at the time of presentation, he/she will get 0 regardless of the score of the group for the presentation. Also, each member of the group must participate in the presentation of the project by actually presenting some part of the project (i.e. talking about some part of the project during the presentation).
