Assignment 2
CSC1010 Computers and Applications

Due Date
Thursday, 01/29/2009

Objectives
Learn how to use search engine and understand the components of the computer.

Tasks
You may have a partner. But the maximum number of members in a team is two.

Suppose you are given $1,800, buy a laptop computer:

Brand: IBM, DELL, HP, SONY, TOSHIBA, ACER, DELL, ASUS, Gateway, etc.

Processor: 2.0GHz or above

Operating System: Windows XP or Windows Vista

Display: 14 inch or above

Memory: 1GB or above

Media Bay Options: 8X DVD

Storage: 80GB or above

Modem & LAN: wireless network card supporting 802.11b or 802.11g

Weight: less than 8 lbs

Your answers must be printed and include the following information:
1. Product name (For example, Dell 600m)

2. Where did you buy it? (Web page)

3. Final price (after rebate or coupon)

4. Detail description

5. Explain why you bought it or evaluations from the website (at least 50 words)
